### FERTILITY

| **Fertilize Through Mist?** | No |
| **Fertilizer Rate**       | 50-75 ppm N (20-6-22 or 22-5-16 [15-0-15 under low-light conditions]) |
| **EC Range**              | Moderate: (2.0-3.5 mS via SME) |
| **pH Range**              | 6.2-6.5 |

---

### TEMPERATURE

| **Average Soil Temperature** | 65-72°F (18-22°C) |
| **Average Air Temperature** | 65-72°F (18-22°C) |

---

### IRRIGATION

| **Irrigation Frequency** | Level 3: Keep media moderately moist with mild dry cycles |

---

### LIGHT

| **Supplemental** | No |
| **Benefits From Shade?** | No |

---

### POTENTIAL DISEASES

- Fusarium, rust

---

### POTENTIAL PESTS

- Spider mites, aphids

---

### PGR SUGGESTIONS

- Optional 300-500 ppm Florel (3.9% Ethephon)

---

### CULTIVAR LIST

- Odessa Bling Bling, Odessa Orange Bling Bling, Odessa Red and Odessa Red, Odessa Pure, Odessa Easy Pink

---

### TIPS

- Don’t let foliage dry-out for the first 14 days.
- A propagation mix of 40% perlite and 60% peat moss (or coconut coir) with an EC starter charge of 0.75-1.0 mS/cm is appropriate for all Dümmen Orange Dianthus.

FERTILITY

Fertilizer Rate 100-150 ppm N (20-6-22 or 22-5-16 [15-0-15 under low-light conditions])
EC Range Moderate: (2.0-3.5 mS via SME)
pH Range 5.5-6.2

TEMPERATURE

Day Temperature 65-75°F (18-24°C)
Night Temperature 55-65°F (13-18°C)

IRRIGATION

Irrigation Frequency Level 3: Keep media moderately moist with mild dry cycles

LIGHT

Photoperiodic requirements Daylength Neutral
Supplemental? None
Benefits From Shade? No

PINCHING

Finishing Pinch? Yes
Transplant to pinch (days) 14-21

POTENTIAL DISEASES

Fusarium, rust

POTENTIAL PESTS

spider mites, aphids

PGR SUGGESTIONS

- 1-2 ppm Bonzi (0.4% Paclobutrazol) drench as needed or 1500 ppm B-Nine (85% Daminozide) as needed

TIPS

- All three plants in this Confetti Garden® should be pinched at the same time to promote even growth.
- The finishing pinch should be 14-21 days after transplant. Eliminating the main leader stem will result in the best formed plant.

DESCRIPTION

New Confetti Garden® concept from Dümmen Orange perennials – varieties that time together and coordinate perfectly. Happiness blooms with Confetti Garden®, the original mixed-flower garden and home decorating solution.

CONSUMER APPEAL

- Garden ready containers, these Confettis may also be planted in the landscape when done blooming for great focal-point garden pieces year after year. A one-stop-shop for great color and bold splashes of character.
- Dianthus is low maintenance and recognizable to many gardeners. New novelties and old nostalgia help to create a powerful practical-emotional draw.

GARDEN ATTRIBUTES

- Dianthus require very well drained soil and a slightly alkaline pH to reach their full potential. Heavy clay soils or those that are poorly drained should be avoided.
- Dianthus is low maintenance and recognizable to many gardeners. New novelties and old nostalgia help to create a powerful practical-emotional draw.
- Due to their delightful aroma, our Dianthus are an excellent addition to fragrance gardens. They can also be planted in rock gardens, along dry borders or edgings, or within containers. If grown for long enough, Dianthus will spread into a wonderful mounding mat that acts as a ground cover. In general, Dianthus are quite resistant to deer.

NATIVITY

Components likely of Mediterranean origin. However, exact center of origin is difficult to determine due to its extensive cultivation and breeding over the past 2,000 years.

COMPANION PLANTS
Sedum, Lavandula, Penstemon, Euphorbia, Phlox, Scabiosa

COMMON NAME(S)
carnation, clove pink
