PROPAGATION

Trio Confetti Trio Confetti Phlox Early

Confetti Garden Multi-variety

TRAY & ROOTING

Form	Unrooted Cuttings (URC)
Rooting Hormone	Optional
Tray Size(s)	50
Plants Per Cell	3
Wks. From Stick To Transplant	6-8
Pinch?	Optional
Days from stick to pinch	17-21

CULTIVAR LIST

Early Love

FERTILITY

Fertilize Through Mist?	50-75 ppm N
Fertilizer Rate	100-150 ppm N (20-6-22 or 22-5-16 [15-0-15 under low-light conditions])
EC Range	Moderate: (2.0-3.5 mS via SME)
pH Range	6.0-6.5

TEMPERATURE

Average Soil Temperature	22-26°C
Average Air Temperature	22-26°C

IRRIGATION

Irrigation Frequency	Level 3: Keep media moderately moist with mild dry cycles
----------------------	--

LIGHT

Supplemental	Yes
Benefits From Shade?	No

POTENTIAL DISEASES

root rot, bacterial leaf spot, powdery mildew

POTENTIAL PESTS

whitefly, aphids, mites

PGR SUGGESTIONS

- Optional 300-500 ppm Florel (3.9% Ethephon)

TIPS

- Consistent sticking of cuttings is key, ensure they are not buried too deep in the tray.

FINISHING

Trio Confetti Trio Confetti Phlox Early

Confetti Garden Multi-variety

VERNALIZATION

Vernalization Required?	Yes
Vernalization Duration Minimum	6-8 weeks
Vernalization Temperature	1.6-4.4°C

CONTAINER SIZE	PLANTS PER POT	TRANSPLANT TO FINISH (WEEKS)
----------------	----------------	------------------------------

16 cm	1	8-10
22 cm	2-3	8-10

FERTILITY

Fertilizer Rate 200-250 ppm N (20-6-22 or 22-5-16 [15-0-15 under low-light conditions])

EC Range **High: (3.5-5 mS via SME)**

pH Range **5.5-6.2**

TEMPERATURE

Day Temperature **24-27°C**

Night Temperature **18-24°C**

IRRIGATION

Irrigation Frequency **Level 3: Keep media moderately moist with mild dry cycles**

LIGHT

Photoperiodic requirements **Daylength Neutral**

Supplemental? **Daylength Extension**

Benefits From Shade? **No**

PINCHING

Finishing Pinch? **No**

Transplant to pinch (days) **N/A**

POTENTIAL DISEASES

root rot, bacterial leaf spot, powdery mildew

POTENTIAL PESTS

whitefly, aphids, mites

PGR SUGGESTIONS

- None

TIPS

- Drip irrigation and proper spacing helps to prevent stretching and promote a compact growth habit.

FEATURES AND BENEFITS

Trio Confetti Trio Confetti Phlox Early

Confetti Garden Multi-variety

KEY INFORMATION

First Year Flowering?	Yes
Bloom Time	Late Spring
Exposure	Full Sun
Hardiness Zone	3-9
Height	10-12 inches (25-30 cm)
Width	12-24 inches (30-60 cm)

DESCRIPTION

New Confetti Garden concept from Dümmen Orange perennials -- varieties that time together and coordinate perfectly. Happiness blooms with Confetti Garden, the original mixed-flower garden and home decorating solution.

CONSUMER APPEAL

- Garden ready containers, these Confettis may also be planted in the landscape when done blooming for great focal-point garden pieces year after year. A one-stop-shop for great color and bold splashes of character.
- Phlox is a known butterfly and hummingbird magnet. Additionally, it has shown good resistance to deer and the allelopathic biochemicals excreted by black walnut trees.

GARDEN ATTRIBUTES

- The true flower-power of Phlox comes from an abundance of small blooms. With that being said, the fragrant flower clusters can still be used in bouquets or arrangements especially if the entire stalk is removed.
- A good choice for patio walkways as Phlox subulata is shorter than other phlox cultivars. It's also a versatile choice for rock gardens, around structure foundations, pollinator gardens, woodland gardens, or as a trailing component in containers or along retaining walls.
- Should be grown in well drained soil with a good organic matter content. Compost is an excellent way to amend your soil for this plant's benefit.
- Phlox are notorious for their susceptibility to powdery mildew, Phlox subulata is far more resistant than most Phlox if sited properly.

NATIVITY

Components native to the eastern and central United States and Canada.

COMPANION PLANTS

Veronica, Leucanthemum, Geranium, Lamium, Lamiastrum, Viola, Paeonia, Campanula, Dianthus

COMMON NAME(S)

moss phlox, creeping phlox, mountain phlox
