### TRAY & ROOTING
- **Form**: Unrooted Cuttings (URC)
- **Rooting Hormone**: Optional
- **Tray Size(s)**: 50
- **Plants Per Cell**: 3
- **Wks. From Stick To Transplant**: 6-8
- **Pinch?**: Optional
- **Days from stick to pinch**: 21-28

### FERTILITY
- **Fertilize Through Mist?**: No
- **Fertilizer Rate**: 50-75 ppm N (20-6-22 or 22-5-16 [15-0-15 under low-light conditions])
- **EC Range**: Moderate: (2.0-3.5 mS via SME)
- **pH Range**: 5.6-6.2

### TEMPERATURE
- **Average Soil Temperature**: 65-72°F (18-22°C)
- **Average Air Temperature**: 65-72°F (18-22°C)

### IRRIGATION
- **Irrigation Frequency**: Level 3: Keep media moderately moist with mild dry cycles

### LIGHT
- **Supplemental**: No
- **Benefits From Shade?**: No

### POTENTIAL DISEASES
- powdery mildew, downy mildew

### POTENTIAL PESTS
- aphids, whitefly

### CULTIVAR LIST
- Spring Purple, Spring Dark Pink, Spring White

### TIPS
- High EC will burn cutting tips. Low fertilizer dosages more frequently is preferable over high dosages less frequently.

FERTILITY

Fertilizer Rate 100-150 ppm N (20-6-22 or 22-5-16 [15-0-15 under low-light conditions])
EC Range Moderate: (2.0-3.5 mS via SME)
pH Range 5.5-6.2

TEMPERATURE

Day Temperature 45-55°F (7-13°C)
Night Temperature 35-45°F (2-7°C)

IRRIGATION

Irrigation Frequency Level 3: Keep media moderately moist with mild dry cycles

LIGHT

Photoperiodic requirements Daylength Neutral
Supplemental? None
Benefits From Shade? No

PINCHING

Finishing Pinch? No
Transplant to pinch (days) N/A

POTENTIAL DISEASES

powdery mildew, downy mildew

POTENTIAL PESTS

aphids, whitefly

PGR SUGGESTIONS

• None

TIPS

• Keep plants as cool as possible to promote extended flowering and a compact habit.
• Plants require heavy vernalization.

**Trio Confetti Phlox**

**CONFECTTI GARDEN Multi-variety**

**KEY INFORMATION**

- **First Year Flowering?** No
- **Bloom Time** Spring
- **Exposure** Full Sun
- **Hardiness Zone** 3-9
- **Height** 4-8 inches (10-20 cm)
- **Width** 10-14 inches (25-36 cm)

**DESCRIPTION**

New Confetti Garden concept from Dümmen Orange perennials – varieties that time together and coordinate perfectly. Happiness blooms with Confetti Garden, the original mixed-flower garden and home decorating solution.

**CONSUMER APPEAL**

- Garden ready containers, these Confettis may also be planted in the landscape when done blooming for great focal-point garden pieces year after year. A one-stop-shop for great color and bold splashes of character.
- Phlox is a known butterfly and hummingbird magnet. Additionally, it has shown good resistance to deer and the allelopathic biochemicals excreted by black walnut trees.

**GARDEN ATTRIBUTES**

- The true flower-power of Phlox comes from an abundance of small blooms. With that being said, the fragrant flower clusters can still be used in bouquets or arrangements especially if the entire stalk is removed.
- A good choice for patio walkways as Phlox subulata is shorter than other phlox cultivars. It’s also a versatile choice for rock gardens, around structure foundations, pollinator gardens, woodland gardens, or as a trailing component in containers or along retaining walls.
- Should be grown in well drained soil with a good organic matter content. Compost is an excellent way to amend your soil for this plant’s benefit.
- Phlox are notorious for their susceptibility to powdery mildew. Phlox subulata is far more resistant than most Phlox if sited properly.

**NATIVITY**

Components native to the eastern and central United States and Canada.

**COMPANION PLANTS**

Veronica, Leucanthemum, Geranium, Lamium, Lamiastrum, Viola, Paeonia, Campanula, Dianthus

**COMMON NAME(S)**

moss phlox, creeping phlox, mountain phlox
