PROPAGATION

CONFETTI GARDEN® WITH LANTANA

Multi-Cultivar Combination

TRAY & ROOTING

Form	Vegetative Cutting (URC)
Rooting Hormone?	Yes
Tray Size	50 cell three dibble
Plants Per Cell	3
Days In Mist	7-12
Wks. From Stick To Transplant	4-5
Propagation Pinch?	Yes
Weeks To Pinch	2-3

FERTILITY

Fertilize Through Mist?	None
Fertilizer Rate	100-150ppm N
EC Range	Moderate: (2.0-3.5 mS via SME)
pH Range	5.6-6.2

TEMPERATURE

Average Soil Temp	70-75°F (21-24°C)
Average Air Temp (Day)	75-80°F (24-27°C)
Average Air Temp(Night)	68-72°F (20-22°C)

IRRIGATION

Irrigation Frequency	Level 3: Keep media moderately moist with mild dry cycles
----------------------	--

LIGHT

Daylength Neutral?	Yes
Supplemental	Optional
Benefits From Shade?	No

POTENTIAL DISEASES

Pythium, Rhizoctonia

POTENTIAL PESTS

Aphids, Whiteflies, Leafminers

PGR SUGGESTIONS

- Havana are naturally compact, no PGRs are recommended in the propagation phase.

'Havana Nights'

TIPS

- Lantanas can be somewhat slow to root. Until roots have established, keep plants consistently misted in low amounts.
- Dibble three evenly spaced holes per rooting cell. Holes that are too large or deep will cause uneven rooting from lack of stem-to-root medium contact. Once cuttings are stuck, trays should be sent through a water tunnel to seat/seal the cuttings in the dibble holes to ensure quick uniform rooting.
- One sticker can stick an entire inner-box of one mix. Stick one cultivar at a time to avoid confusion.

FINISHING

CONFETTI GARDEN® WITH LANTANA

Multi-Cultivar Combination

CONTAINER SIZE	PLANTS PER POT	TRANSPLANT TO FINISH (WEEKS)
----------------	----------------	------------------------------

6 in. (15 cm)	1	7-8
8 in. (19 cm)	1	9-10
12 in. (30 cm)	2-3	12-14

FERTILITY

Fertilizer Rate	150-200 ppm N
EC Range	Moderate: (2.0-3.5 mS via SME)
pH Range	5.6-6.2

TEMPERATURE

Day Temperature	65-73°F (18-23°C)
Night Temperature	68-75°F (20-24°C)

IRRIGATION

Irrigation Frequency	Level 3: Keep media moderately moist with mild dry cycles
----------------------	--

LIGHT

Daylength Neutral?	Yes
Optimum Light Level	5,000-10,000 fc (53,800-107,700 lux)
Supplemental	Optional
Benefits From Shade?	No

PINCHING

Finishing Pinch?	Yes
Transplant to Pinch (days)	As needed to shape

POTENTIAL DISEASES

Pythium, Rhizoctonia

POTENTIAL PESTS

Aphids, Whiteflies, Leafminers

PGR SUGGESTIONS

- Optional Bonzi (0.4% Paclobutrazol) at 2ppm
- Optional Sumagic (0.055% Uniconazole) at 10ppm
- Optional B-Nine (85% Daminozide) at 1,500ppm mixed with Cycocel (11.8% Chlormequat) at 1,000ppm

'Havana Sky'

TIPS

- Lantanas grow best when fertilized with a blend of nitrate and ammonium-based fertilizers to strike a balance in leaf size, pH levels, and growth habit.
- Cold, wet, conditions hinder growth and increase disease pressures.
- No matter the number of liners placed in a container, they should all be placed in the center, not spread out towards the rim of the container. For two or three liners, they should be clustered in the center separated only slightly.
- Saturated media with a high salt content drastically increases plant susceptibility to fungal root rot diseases. Leach regularly to limit salt buildup.
- Additional pinching during production greatly improves branching and plant form of Confetti Garden® at finish. A light trim/pinch several weeks after transplant is highly suggested. Trimming and manicuring plants early in production produces a fuller, more balanced Confetti Garden®, as opposed to early PGR applications.

FEATURES AND BENEFITS

CONFETTI GARDEN® WITH LANTANA

Multi-Cultivar Combination

KEY INFORMATION

Consumer Watering Instructions	Water thoroughly when top 1 inch (3cm) of soil is dry.
Bloom Time	Blooms Spring to Autumn
Exposure	Full Sun
Height	12-24 inches (30-61 cm)
Garden Spacing	24-32 inches (61-81 cm)

DESCRIPTION

Happiness blooms with Confetti Garden®, the original mixed-flower garden and home decorating solution.

'Havana Streets'

CONSUMER APPEAL

- You can plant your Confetti Garden® combinations in containers, hanging baskets or window boxes.
- The original multi-liner solution, Confetti Garden® mixes of two or three different plants grow into a spectacular singular planting.

GARDEN ATTRIBUTES

- A one-stop-shop for bold splashes of color.
- Combine a few different Confetti Garden® mixes to bring varying shades of color and texture to your décor.
- Garden-ready containers, these mixes may also be planted in the landscape for great focal-point garden pieces weaving spectacular plants into the landscape.
- A myriad of options are available, featuring our toughest varieties in an endless range of color schemes and combinations. Forward gardeners to www.ConfettiGarden.com for detailed plant-care information.
